

Tool Karabiner K01xx

Product Description

The K01 is a range of mini-offset oval accessory karabiners NOT FOR PPE. They are small enough to be used in a cambium saver retrieval system and at 8kN, mighty enough to be used in a whole range of tool tethering applications and look perfectly at home on any arborist or rope access harness.

Even though they are not for PPE we still laser mark them with individual serial numbers – which should keep your LOLER inspector happy!

Product Information

Model K01SA	Model K01SG
Weight 15g	Weight 16g
Height 61mm	Height 61mm
Width 34mm	Width 36mm
Gate Opening 13mm	Gate Opening 12mm
