

Wrap Star Eye-to-Eye Hitches and Prusik Loop

Features & Benefits

- The Wrap Star features an HMPE core with braided polyester/Technora cover.
- Flexible cover allows for efficient release of hitches and good knotability.
- Best in class abrasion resistance.
- Unmatched grip with a firm round shape.
- Scannable compatible for tracking and traceability.
- The Prusik loop is a stitched rope connection that retains more strength and is less bulky than a knot.
- Meets requirements of EN 795: 2012 (Type B)
- Country of Origin: UK
